

SimplyOnline

Project Description

Project-Name	SimplyOnline
Team-Name	New York Knicks
Project-Description	<p>The "SimplyOnline" web application aims to simplify the process of online classes.</p> <p>For lecturers who want to conduct Online classes, the SimplyOnline is a web application that simplifies the process of online classes unlike other platforms, where lecturers need to spend time on other activities like marking attendance. our solution provides the ability to take attendance automatically using facial recognition.</p>
Benefits	<ul style="list-style-type: none">• In online classes the process of marking attendance manually takes significant amount of time. This time can be saved using auto attendance system.• Lecturers can create rooms and connect with students seamlessly.
