

Retrospective:

What went well:

Team completed all the stories that were planned for the sprint and able to deliver work that met the requirements. Team successfully encountered unexpected challenges or obstacles during the sprint.

What needs to improve:

Team needs to be effectively collaborated and communicate with each other to ensure that the work should on time.

The team can also discuss the effectiveness of their agile process, including the use of tools such as the daily stand-up, sprint planning, and sprint review. These meetings will help to facilitate communication and collaboration among team members and ensure that everyone was aligned on the project goals and priorities?
